

Assured Pack BROADBAND INTERNET SECURITY

**Is your Internet and email connection mission critical?
Then this is the pack for you.**

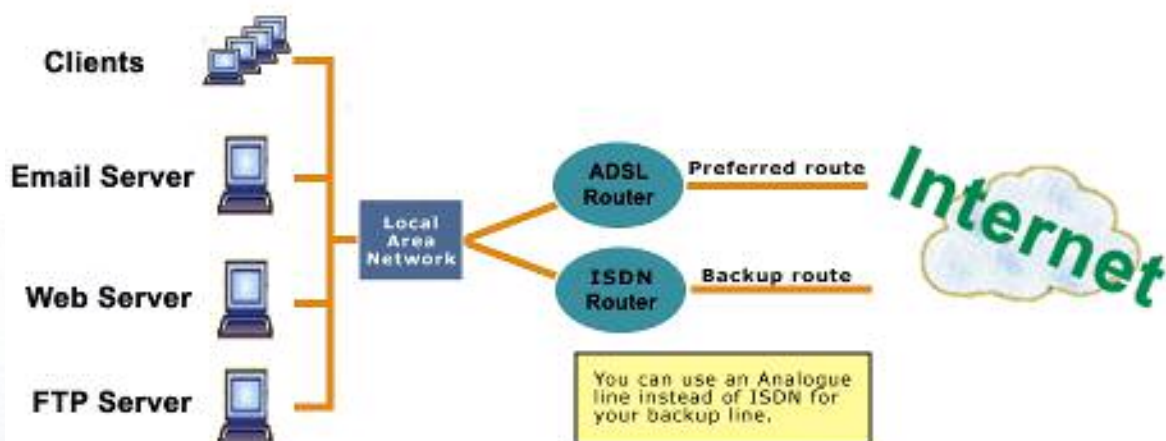

ADSL with ISDN/Analogue backup

The system bundle provides automatic analogue or ISDN backup if the ADSL link is lost, or the ADSL router fails

How does it work?

The ADSL router and the ISDN/analogue router are both configured with a route to the Internet.

When the ADSL line is operational, it will be the only path that will be used for sending packets to the Internet.

What happens when the ADSL line fails ?

If the ADSL line fails, the ADSL router will recognise that it is no longer possible to send data to the Internet via that line, and so will mark the default route via the ADSL as inoperative. So, the ADSL router will then have only one default route - namely the one via the ISDN/analogue router.

So, we end up with the situation that the ISDN/analogue router has only one default route - via its ISDN line; and the ADSL router has only one default route - via the ISDN/analogue router. So, the only available path to the Internet is via the ISDN line on the ISDN/analogue router.

What happens when the ADSL line is repaired?

When the ADSL router detects that the ADSL line is operative again, it marks the default route via the ADSL as being operative. So, the situation returns to the state where both routers have two default routes, and both routers agree that the most desirable route to the Internet is via the ADSL line on the ADSL router.

The features of your broadband connection Assured Pack

- ADSL Router + filter
- Mid Range Access Router
- ISDN PIC Module

The cost of your broadband connection Assured Pack

- No extra monthly charge
- Set up and hardware cost of £213.48 (+VAT)

Upgrades and other services available

- Encryption/compression cards for VPN
- Enhanced warranty from £109.74 (+VAT) per annum

- Security Pack
- Network Pack
- Extra Hardware
- More IP addresses
- Install of ADSL to entire network
- Installation Support
- Hardware Maintenance
- Software Support
